The following is an examiner's statement of reasons for allowance: The claims are deemed free of the prior art, given the failure of the prior art to teach or reasonably suggest a soybean plant having all of the traits of soybean variety XB09J04 as listed on Table 1 of the specification, and methods of its use in breeding. The closest prior art is the soybean variety designated 92B05 to Corbin III et al (US 5,942,668, in the record). However, the instantly claimed variety differs from the prior art plant in at least relative maturity, and its resistance to white mold.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
